Doctor of Acupuncture and Oriental Medicine

CATALOG 2015

Graduate School of Traditional Chinese Medicine

www.fivebranches.edu
Welcome to Five Branches University
Doctor of Acupuncture and Oriental Medicine Program

Since its inception, we have enrolled 371 doctoral students of which 137 have graduated. During this time, the significant contributions of faculty, staff and students have allowed us to realize our vision: enriching the practice of TCM through lively, thought-provoking, in-depth training with masters from China, Europe and the U.S.

The DAOM program is designed to bring your TCM practice to the highest level. Expert TCM practitioners, clinical specialists and Western MD’s present a stimulating and rigorous curriculum. Through extensive clinical training, exposure to research, and in-depth-instruction in a specialty of your choice you can bring your knowledge, skills and practice to a new level of expertise. Hospitals such as Kaiser Permanente, research centers such as NIH, and universities such as Stanford, already recognize and seek DAOM graduates.

We believe that Traditional Chinese Medicine will continue to play a growing and central role in future healthcare and integrative medical systems. Our goal is to serve and we are devoted to the transmission of this profound body of knowledge to patients throughout the US and internationally.

We invite you to visit our beautiful San Jose campus on Santana Row to preview this exceptional program. In a personal preview or information session you will have the opportunity to evaluate the program curriculum first-hand and discern its potential impact on your current practice. Meanwhile, visit our website at www.fivebranches.edu to download the DAOM catalog and application for admission, or call us directly to request a printed catalog. Our admissions staff is available to answer your questions and to arrange a personal tour.

Thank you for your interest in the Five Branches University Doctor of Acupuncture and Oriental Medicine (DAOM) program.

Sincerely,

Ron Zaidman
Five Branches University President & CEO
**A Modern Integrative Medical Curriculum**

Our modern integrative medical curriculum bridges the gap between TCM and biomedicine approaches, promoting cross-referrals and inter-disciplinary medicine. The program covers both the TCM and Western medicine perspective of a core TCM practice and each medical subspecialty of family medicine.

**Clinical Training with TCM and Western Medicine Experts**

Receive extensive clinical training from renowned senior TCM practitioners and biomedicine experts from China, the U.S., and Europe in the following clinic environments: the Five Branches health centers, local community clinics and hospitals, and major hospitals affiliated with our sister colleges in China.

**Medical Specialization**

The DAOM curriculum emphasizes advanced clinical TCM with broad exposure to family medicine (the core of a LAc.’s practice) and the option to specialize in:
- Women's Health and Endocrinology
- Neuromuscular Medicine and Pain Management
- Auricular Medicine (optional)
- Cerebro-Cardiovascular Diseases (optional)

**Earn a Ph.D. in China**

Upon completion of the program, you will be awarded a Doctor of Acupuncture and Oriental Medicine degree by Five Branches University. With an additional year of study, partially in China, you may earn a Ph.D. degree awarded by one of our sister colleges: Zhejiang Chinese Medical University, Tianjin University of Traditional Chinese Medicine, and Liaoning University of Traditional Chinese Medicine. The Ph.D. degree is acknowledged by foreign credentials review agencies as equivalent to a Ph.D. in the U.S.

**Research and Capstone Project**

Learn how to assess evidence-based medicine, review new trends in TCM research and enhance your TCM scientific thinking skills. The capstone, an extensive research project in the final phase of the program, will allow you to demonstrate mastery in formal presentation, clinical evaluation and practice, and research capability. The capstone project, focused on your chosen field of specialization, will require quantitative and qualitative analyses as well as inductive and deductive research methods.

**Meets California and National CEU Requirements**

Almost all DAOM courses offered throughout the program fulfill both California and national CEU requirements.

**Flexible 4-Day Module Designed For Working Professionals**

Our monthly modular format of three to four-day weekend intensives, with a flexible clinical training schedule, allows you to earn a doctorate degree in as little as 24 months while maintaining your private practice.

**Trimester Admissions**

Applications for admission are reviewed throughout the year. New entering students are accepted on a trimester basis, in September, January, and May.

**Federal Financial Aid Available**

Five Branches University is an accredited institution of higher education approved to participate in federal financial aid programs. Our financial aid programs can assist you with the financial costs of a DAOM education, including tuition, fees, books, supplies, and the cost to attend the program 3–4 days each month. Students who are enrolled in the DAOM program for a minimum of three units each trimester are eligible for in-school deferment for their Federal Stafford Loans or Consolidated Federal Loans.
Two Campuses

Five Branches University opened its first campus and health center in Santa Cruz, California in 1984, offering Traditional Chinese Medicine education and healthcare to the residents of this thriving, coastal Northern California town. In 2005, our main objective for opening the San Jose campus, located in the heart of Silicon Valley, was twofold: to provide the best of Traditional Chinese Medicine education and healthcare to this growing high-tech area; and to have a campus located in close vicinity to important university medical programs and hospitals such as Stanford Medical School and Kaiser Hospital.

Ten Programs

Five Branches University offers ten programs related to Traditional Chinese and Integrative Medicine at its two California campuses:

Santa Cruz Campus
- Master of Traditional Chinese Medicine (English)
- Master of Acupuncture (English)
- Asian Bodywork and Qigong Certification Programs (English)

San Jose Campus
- Master of Traditional Chinese Medicine (English)
- Master of Traditional Chinese Medicine (Chinese)
- Master of Traditional Chinese Medicine (Korean)
- Master of Acupuncture (English)
- Doctor of Acupuncture and Oriental Medicine (English)
- Doctor of Acupuncture and Oriental Medicine (Chinese)
- Asian Bodywork and Qigong Certification Programs (English)

This catalog describes the Doctor of Acupuncture and Oriental Medicine (DAOM) program. The Master’s degree and certificate programs are described in separate publications.

Mission and Purpose

Five Branches University, Graduate School of Traditional Chinese Medicine, aims to set the standards for excellence in Traditional Chinese Medicine (TCM) education and healthcare. Five Branches University is dedicated to:
- Provide the highest level of professional education in Traditional Chinese Medicine and integrative medicine in the U.S. and internationally.
- Develop highly-skilled TCM clinical practitioners, educators and researchers.
- Advance the practice of TCM as an independent medical modality through clinical practice, education and research.
- Encourage professional collaboration among TCM practitioners, faculty, patients, and other medical providers to transform the worldview of healthcare; to recognize TCM as a significant component of world medicine.
- Support an international and diverse cultural community by offering our programs in three languages, and providing students the opportunity to study abroad.
- Foster a professional environment for faculty, staff and students to promote academic excellence as well as personal growth and development.
• Provide exceptional TCM and integrative medicine patient care to the community through the Five Branches University health centers.
• Educate the general public about the significant benefits of TCM healthcare through continuing education programs and community lectures.

**Vision and Values**

Over the next 20 years, Five Branches University will evolve into an international university, teaching high-level TCM education in English, Chinese, and Korean and offering TCM healthcare in an integrative medicine environment throughout the U.S. and worldwide.

TCM philosophy views medicine as a compassionate response to human suffering. We will embrace this philosophy by encouraging supportive and humanistic academic and healthcare environments. Our faculty members will be chosen based not only on academic excellence but also on the passion they emanate while teaching and mentoring students. Our students will be chosen for academic competence as well as their compassion and commitment to serve others.

Four trends will influence our vision over the next 20 years:

An increasing number of patients will continue to seek highly qualified TCM practitioners as primary healthcare providers. TCM schools will continue to improve their programs to provide highly skilled TCM clinical practitioners to meet this growing demand.

TCM universities in China and medical experts in the U.S. will continue to collaborate and share their expertise in TCM and Western medicine, a vital component for the advanced development of TCM doctoral programs and research.

Scientists, researchers and medical institutions will continue to research the depth and efficacy of TCM, resulting in greater acceptance of Chinese medicine among medical professionals and medical schools in the U.S.

A greater demand for integrative healthcare will evolve as healthcare professionals join together to address the population's full health needs by educating one another about their work and collaborating to provide effective treatment, prevent disease and promote optimal well-being for patients.

**Center for International Medicine and Education**

After eighteen years of educational and medical relations with China, Five Branches University formally established its Center for International Medicine and Education. With a mission to promote cultural and professional exchange, the Center brings experts and students from the U.S. and China together to participate in international conferences and programs in Traditional Chinese Medicine (TCM), integrative medicine, medical administration, and language.

The Center’s most continuous activity is its Study Abroad program which offers Five Branches students and TCM practitioners the opportunity to travel to Asia to receive specialized TCM and integrative medicine training in an affiliated hospital and out-patient center at one of our five sister schools in China, Taiwan or Korea: Zhejiang Chinese Medical University, Liaoning University of TCM, Tianjin University of TCM, China Medical University, and Daejeon University. After training in the hospital, many participants make time to travel throughout China and Asia.

In April 2004, the Center for International Medicine and Education, in partnership with Zhejiang Chinese Medical University, hosted their first international conference, *Treating Difficult Cases with Integrated Medicine*. Six representatives from Five Branches University, including eminent doctors of both Western and Traditional Chinese Medicine, traveled to...
Hangzhou, China to present three research papers on TCM and integrative medicine.

The Center invited leading doctors from Stanford University and the University of California, San Francisco to attend the conference, along with other medical professionals from Europe and China.

Also in 2004, the Center, along with the Director of the Center for Education in Family and Community Medicine at Stanford University, organized a series of seminars on modern hospital administration. The seminars were presented to leaders of hospitals in Foshan, Chongqing and Shantou, China.

In Fall of 2008, Five Branches inaugurated two specialized medical centers: a Diabetes Center with Dr. Gan Ma of the Zhejiang Chinese Medical University Diabetes Center, and a Head Acupuncture Institute with Dr. Shunfa Jiao, the developer of Head Acupuncture in China.

In 2012, Five Branches, in partnership with Dr. Shi Xuemin, inaugurated the new Stroke and Rehabilitation Center at both of our campuses in Santa Cruz and San Jose, California.

From 2008 through 2014, the Center invited several renowned practitioners from China to teach in the Doctoral program and practice at the Five Branches health centers.
History of Five Branches

Five Branches University was founded on an auspicious day: February 4, 1984, on Chinese New Year in the Year of the Mouse, at the beginning of a 60-year cycle. We had one classroom, a clinic with three treatment rooms, five teachers, 18 dedicated students, one patient a day, and one typewriter. Today we have two campuses, 14 classrooms, 38 treatment rooms, 200 teachers, 450 dedicated students, 1500 alumni, and we see 160 patients a day. We have grown.

From the beginning, it was our intention to invite Traditional Chinese Medicine practitioners to the West, to teach and transmit their precious knowledge of Chinese medicine and to share their subtle yet powerful ways of practicing medicine. The history of Five Branches began when several of these extraordinary yet humble practitioners of TCM accepted our invitation.

The essence of our success has been the quality and dedication of our faculty/practitioners. Jeffrey Pang, L.Ac., Joanna Zhao, L.Ac., and Lucy Hu, L.Ac., have been with us for over 30 years. Today, our faculty number over 200 distinguished members.

The most meaningful events of our history, however, are the memories of the hug and warm smile a patient gives one of our faculty members when they meet outside the clinic, the practitioner who shares how Chinese medicine saved their patient’s life, and the heartfelt gratitude expressed by a graduate at their graduation for the gifts received from faculty during their time of study and training at Five Branches.

It is our comprehensive academic programs, the quality of teaching in both the classroom and clinic and the deep and sincere dedication of faculty, staff and students that have contributed significantly to the transmission of this incredible medicine into our communities and throughout the West.

History Highlights

1984–1988
- Five Branches Institute is founded on February 4, 1984
- Five Branches enrolls its first class of 18 students
- Approved as degree-granting school by California Council of Education
- Five Branches builds a modern seven-room clinic

1989–1993
- The Five Element Acupuncture program is established
- Five Branches students travel to China for the annual Study in China program
- The Medical Qigong program is established

1994–1998
- Five Branches Institute receives national accreditation
- Five Branches expands the library, clinic and classrooms
- Externship clinic program with community clinics is established

1999–2003
- The Sports Medicine program is established
- Five Branches expands clinic to 22 treatment rooms
- Five Branches and Zhejiang College of TCM to develop joint Doctoral/Ph.D. program

2004–2008
- Five Branches co-hosts the first International Conference on Integrated Medicine with Zhejiang Chinese Medical University in China
- Five Branches establishes the San Jose campus, offering the TCM Master’s Degree
- Stanford doctors and staff explore cooperative education with Five Branches
- The Doctor of Acupuncture and Oriental Medicine program is established
- The Chinese TCM Master’s Degree program is established at the San Jose campus

2009–2014
- Korean Master’s in Oriental Medicine program is established
- Five Branches students travel to Taiwan for the annual Study Abroad program
- Five Branches receives the maximum of seven years institutional and Master’s degree program re-accreditation
- The DAOM program receives full accreditation
- The Stroke and Rehabilitation Center is inaugurated
- The Mind-Body Department is established
Accreditation & Approvals

Institutional Accreditation

Five Branches University is institutionally accredited by the Accreditation Commission for Acupuncture and Oriental Medicine (ACAOM), which is the recognized accrediting agency for freestanding institutions and colleges of acupuncture or Oriental medicine that offer such programs.

Doctor of Acupuncture and Oriental Medicine (DAOM) Program Accreditation

The Doctor of Acupuncture and Oriental Medicine degree program of Five Branches University is accredited by the Accreditation Commission for Acupuncture and Oriental Medicine (ACAOM), which is the recognized accrediting agency for programs preparing acupuncture and Oriental medicine practitioners.

Master of Traditional Chinese Medicine (MTCM) and Master of Acupuncture (MAc) Program Accreditation

The Master of Traditional Chinese Medicine and the Master of Acupuncture degree programs of Five Branches University are accredited by the Accreditation Commission for Acupuncture and Oriental Medicine (ACAOM), which is the recognized accrediting agency for programs preparing acupuncture and Oriental medicine practitioners.

ACAOM is located at 8941 Aztec Drive, Eden Prairie, MN 55347; telephone (952) 212-2434; website www.acaom.org.

National and State Approvals

Five Branches University is a private institution recognized, approved by, or is a member of the following national and state associations:

- National Certification Commission for Acupuncture and Oriental Medicine (NCCAOM)
- Council of Colleges of Acupuncture and Oriental Medicine (CCAOM)
- Title IV Federal Student Financial Aid Program, U.S. Department of Education
- U.S. Citizenship and Immigration Services (USCIS)
- U.S. Department of Homeland Security approval for foreign students
- Veterans Education, U.S. Department of Veterans Affairs
- California State Acupuncture Board, California State Department of Consumer Affairs
- California Bureau for Private Postsecondary Education, website www.bppe.ca.gov.

Five Branches University is a private institution approved to operate by the California Bureau for Private Postsecondary Education. Approval to operate means the institution is compliant with the minimum standards contained in the California Private Postsecondary Education Act of 2009 (as amended) and Division 7.5 of Title 5 of the California Code of Regulations.

What You Should Know About Our State Re-Approval

Although this institution was approved to operate by the former Bureau for Private Postsecondary and Vocational Education, our pending application for re-approval to operate has not yet been reviewed by the Bureau for Private Postsecondary Education. For more information, call the Bureau for Private Postsecondary Education at (916) 574-7720, or toll free at (888) 370-7589, or visit its website at www.bppe.gov.
**Board of Directors**

Director, Grace Essence Mandala, Taos, New Mexico

**Ron Zaidman, M.B.A., M.T.C.M., Doctoral Fellow**
President and CEO, Co-founder of Five Branches University

**Joanna Zhao, L.Ac., Doctoral Fellow**
Vice-President Academic and Clinic Affairs, Co-founder of Five Branches University

**Steven Vaccaro**
Entrepreneur, Toronto, Canada
San Jose California

In the heart of Silicon Valley, the mecca of high tech, San Jose is part of a contemporary, high-tech metropolis, home to major players in the world of technology including Google, eBay, Twitter and Facebook. It is the largest city in Northern California, with a population over one million. Attracted by mild Mediterranean weather and high wages, people from around the world have made their home in San Jose, creating the most ethnically diverse city in the nation. Add a low crime rate and a spacious, wide open feeling and you have one of the most livable, family-friendly locations in the west. The San Jose International Airport makes travel easy and proximity to San Francisco, Santa Cruz, and the wine country provide wonderful day trip destination getaways.

Outdoors and Athletics

With 300 days of sunshine per year, you can imagine San Joseans take good advantage of their parks and open spaces. Many walking and biking trails within the city limits provide glimpses of nature during your green commute. Local sport fans are proud of their NHL hockey team the San Jose Sharks, as well as the major soccer league team the San Jose Earthquakes. These pro games are events you won’t want to miss.

Food and Local Agriculture

Once known more for apricots, plums and grapes than silicon, the fertile Santa Clara valley supplies a rich harvest of produce that can be seen on display at many area farmers’ markets. As one of the oldest wine producing regions in California, Santa Clara valley has many wineries offering tours and tastings daily. Replete with international cuisine and fine restaurants, the quality and variety of dining experiences in San Jose are something to savor.

Arts and Culture

Thanks to a special city ordinance, public art is on the rise in San Jose and many pieces can be seen throughout the city in parks and downtown areas. The celebration of art and culture continues with many community events, performance companies, galleries and museums, including the renowned contemporary San Jose Museum of Art. One of the busiest venues in the world, the HP Pavilion hosts major musical acts, sporting events and conferences. The cosmopolitan Santana Row district combines shopping, dining, living and relaxing all in a beautiful tree-lined atmosphere.

Technology

Silicon Valley slowly replaced the agriculture food companies which gave San Jose its initial nickname, “The Valley of the Heart’s Delight.” With a population of close to four million, Silicon Valley sits in the South Bay portion of the San Francisco Bay area. Home to many of the world’s largest technology corporations, it continues to be the leading hub for high-tech innovation and development.
San Jose Campus

The San Jose campus of Five Branches University resides in a modern high-rise office building, a short commute from San Francisco and the beaches of Monterey Bay, and within walking distance of the prestigious Santana Row. A welcoming courtyard leads you to the entrance of both the health center and the University, where our English, Chinese and Korean Master’s programs and our prestigious Doctoral program reside.

Here is a list of amenities our campus has to offer:

Health Center

Patients await their treatments in a beautifully designed reception area, while practitioners treat over 160 patients each day in our busy health centers. With a combined 38 treatment rooms, herbal pharmacies containing over 500 medicinal products, and expert patient care and clinical instruction, our health centers are the ideal place to gain experience in a clinical environment and to learn how to provide exceptional healthcare to your patients.

Herb Room

The herb room is a fragrant experience. Walls lined with wooden drawers full of Chinese herbs emanate earthy aromas, as practitioners prepare herbal remedies for their patients in the traditional way. In the herb room you will meet with practitioners to learn first-hand how to use herbal medicines to effectively treat your patients.

Classrooms

Spacious classrooms and small class sizes provide the optimal environment for dynamic discussion and meaningful teacher-student interaction. The San Jose campus has eight fully furnished and equipped classrooms, providing ample instruction and meeting space to both faculty and students. Classrooms may be used for continuing education seminars and special presentations in fields related to Traditional Chinese Medicine.

Equipment and Materials

Standard teaching equipment is provided in every classroom including: tables and chairs, white boards, computer and overhead projectors, video equipment, anatomical models, acupuncture charts, and treatment tables for acupuncture training demonstrations. Classrooms used for clinical training are supplied with necessary acupuncture supplies such as treatment tables, sterile disposal acupuncture needles, heat lamps, electric stimulation machines, an herbal dispensary, and TCM reference texts.

Student Lounge

A place to rest, nourish yourself and socialize, the student lounge is fitted with comfortable seating, tables for study, a kitchen to prepare meals, wireless internet, and a bulletin board to check out current campus events.

Library and Learning Resources

For students working on patient cases or preparing for exams, the library is a quiet haven for research and study. You may use the library during its posted hours of operation and may check out library resource materials using your Five Branches Student ID card.

Library resources include computer labs, wireless internet, an online catalog, and other available learning resources. Upon your first visit to the library, you will be provided with a set of instructions and regulations for library use. For detailed information regarding library procedures and polices, please refer to the student handbook or the Library and Research section of our website: www.fivebranches.edu/student-life/108.
Administrative Offices
The open, friendly and accessible administrative team considers DAOM students their top priority. Whether you need assistance to review the curriculum, secure financial aid or to voice your concerns, our administrative staff is available to assist you.

Conference Rooms
Students, faculty and staff may reserve the conference rooms for confidential consultations and meetings.

Parking
The San Jose Campus has two large underground parking lots offering more than sufficient parking for students, faculty and staff. Visitors and patients use an above-ground parking area that is ample and convenient for reaching the ground-floor clinic and administrative offices.

Local Favorites
The San Jose campus has a bountiful supply of restaurant choices. Located within walking distance, Santana Row offers food from around the globe. Designed after the gracious shopping experiences in Europe, Santana Row offers students outdoor cafes, tree-lined walks, the latest fashions, and great people-watching. If you happen to be at the Santa Cruz campus for clinical training, you might have time to enjoy one of the many restaurants within walking distance, and with great views of the ocean.

Transportation
The San Jose campus is conveniently located at the major freeway intersection of Highway 280 and Highway 880 and easily accessible to the San Jose Airport. To obtain information on public transportation in the San Jose area, go to www.511.org.

Accommodations
Students in need of accommodations for the weekend can find a list of hotels on our website at www.five-branches.edu/five-branches-university/campuses/91. If you plan to attend clinical training in Santa Cruz please keep in mind that the distance between the two campuses is 35 miles.

Housing
The Five Branches University’s programs are non-residential and student dormitories or other housing is not provided. There are many available housing options in the area, from rooms available in a household to three bedroom-plus homes. Rentals costs range from $500 to $4500 per month based on size and location.

Five Branches University does not provide housing search assistance to students. If you are in need of housing we recommend you arrive in San Jose six weeks before the beginning of the semester. Go to www.five-branches.edu/student-life/on-campus/549 for a list of resources to aid you in your housing search.

Campus Safety and Security
The Clery/Campus Security Act of 1990 (Title II of Public Law 101-542) requires that all colleges and universities provide annual statistics on several specific categories of crime. This report is published by October 1st of each year on the Five Branches University website at: http://www.fivebranches.edu/five-branches-university/4095.

Any crime occurring on campus or on streets and sidewalks directly adjacent to the campus must be reported to the Student Services Director (408) 260-0208.

Student Services
The university provides a wide array of services to make your experience at Five Branches both rewarding and successful. Our student services include:

- Academic Advising
- Registration
- Health Services
- Library
- Communications
- Externships/Health Fairs
- Student Employment
- Career Development/Placement Assistance

Academic Advising
The DAOM administration team offers academic advising to assist you in the planning and completion of your degree requirements. From enrollment through graduation, the administrative team will support you in your advanced studies as a Doctoral and/or PhD student.
Registration
The DAOM office ensures that registering for the DAOM program flows smoothly. During registration you may talk to our staff regarding our annual China externship, learn more about the PhD opportunity, find out if you qualify for federal financial aid, and receive updates regarding changes in programs, campus facilities and support services.

Health Services
The Five Branches Health Centers are a flourishing environment for both student education and quality healthcare. As a prospective student, you may receive a free acupuncture treatment during your tour of the campus. Enrolled students receive healthcare services at the clinic with significant discounts.

Library
The Santa Cruz and San Jose library collections contain a broad selection of over 6,000 books and 40 journals on Traditional Chinese Medicine, Western medicine, and related topics. The collection includes texts and journals in Chinese and Korean. The library has a modern web-based site detailing its holdings, offering extensive guidelines for research, and a wide variety of medical software and TCM study and testing programs. The library provides wireless internet, copy and laser print services, and a professional librarian and staff to assist you. Library hours include evenings and weekends.

Communications
The University maintains internet and data platforms to facilitate effective administration, student and alumni interaction. Communications include direct email, the university’s web and blog sites, and the Five Branches email and forum platform.

Externships/Health Fairs
Community externships and health fairs offer you the valuable opportunity to network with experienced practitioners and gain clinical experience in a broad range of settings. By volunteering at health fairs, you get a chance to work with other medical modalities and may have an opportunity to introduce TCM to the public by offering trial treatments. The annual China externship program is a coveted international externship, allowing you to travel to Asia to gain clinical experience at leading hospitals in China, Taiwan, and Korea.

Student Employment
Students who qualify for need-based financial aid are eligible to earn money through the Federal Work Study program. Eligibility is awarded on the basis of financial need and is earned money that does not have to be repaid.

Placement Assistance
Five Branches corresponds with medical professionals who may be looking for qualified TCM graduates and regularly posts professional vacancies in the field of acupuncture and TCM on the Five Branches University website under TCM Careers: www.fivebranches.edu/student-life/career-development/career-opportunities/641.

Five Branches University and Clinic receive referral requests nationwide for competent, qualified, licensed acupuncturists. If Five Branches alumni are located within the requested area, patients are referred to these practitioners. Alumni referral information is available on the Five Branches University website under Alumni Practitioner Directory: www.fivebranches.edu/welcome/alumni/788. Five Branches University provides placement assistance for licensed graduates whenever possible.
The DAOM Faculty

The faculty members of the Doctoral program have been carefully selected from the many renowned Traditional Chinese Medicine (TCM) teachers in the United States, China, and Europe. Many of our faculty descend from a lineage of TCM Masters in China and have over 40 years experience practicing and teaching TCM. Several have trained in China's most prestigious TCM universities and hospitals, such as Shanghai University of TCM, Beijing University of Chinese Medicine, Guangzhou University of TCM, Liaoning University of TCM, Tianjin University of TCM, Fujian University of TCM, and Zhejiang Chinese Medical University. DAOM faculty also includes seasoned medical doctors who teach Western Medicine classes. Most of our instructors are fluent in English; Chinese speaking faculty are accompanied by competent translators. All of our DAOM faculty are experienced and successful, teacher-practitioners, and demonstrate a dedication to TCM and a passion for healing.

U.S. Faculty

Gary Dolowich
M.D., L.Ac., Dipl. Ac. (NCCAOM)
MD, University of Pennsylvania School of Medicine
BAc (UK), College of Traditional Chinese Acupuncture, England
Former Faculty, Traditional Acupuncture Institute, Maryland
Faculty, Academy for Five Element Acupuncture, Florida
Professor, Five Element Specialty, Five Branches University, Santa Cruz, California
Five Element Acupuncture

Benzheng Fang
Co-founder, International Micro-acupuncture Research Institute, Hong Kong
Former Director, Micro-acupuncture Research Institute, Xi’an, China
Fang’s Microsystem Acupuncture

L. Francesca Ferrari
LAc.
DMQ (China), Western District Medical Qigong Science and TCM Research Institute, Beijing, China
DTCM (China), Ministry of Health, China
Instructor, Five Branches University, Santa Cruz, California
Associate Dean, Medical Qigong Science, Five Branches University, Santa Cruz, California
Associate Director, Medical Qigong Clinic, Five Branches University, Santa Cruz, California
Overseas Faculty (Dean of TCM), Medical Qigong College, Henan University of TCM, China
Traditional Chinese Medical Qigong

Nadine Gassner
Ph.D.
PhD, Chemistry, University of Oregon, Eugene
Former Research Associate, Stanford University School of Medicine, California
Former Research Associate, Yale University School of Medicine, Connecticut
Research Associate, University of California, Santa Cruz
Director of Research, Five Branches University, Santa Cruz, California
Professor, Five Branches University, Santa Cruz, California
Research Methodology
Pedagogy

Naiqiang (John) Gu
LAc.
BS (China), TCM, Shanghai TCM University, China
Former Chair and Professor, Department of Dermatology, Shanghai TCM University, China
Professor, MTCM and DAOM Program, Emperor’s College of Traditional Oriental Medicine, Santa Monica, California
Dermatology and External Diseases
Frank He  
L.Ac.  
MS (China), Acupuncture, Liaoning College of TCM, China  
Former Instructor and Acupuncturist, Department of Acupuncture, Affiliated Hospital of Liaoning College of TCM, China  
Former Research Professor, Eye Acupuncture, Acupuncture Association of America  
Professor, Five Branches University, Santa Cruz, California  
Chair, Department of Acupuncture, Five Branches University, Santa Cruz, California  
Orthopedic Medicine and Pain Management  
Neuromuscular Medicine and Pain Management  
Specialization

Lucy Hu  
L.Ac., Dipl. Ac (NCCAOM)  
MD (China), Shenyang University, China  
Diplomat in TCM, Chinese Acupuncture and Medical Institute, Hong Kong  
Former Pediatrician and Instructor, Dalian Children’s Hospital, China  
Professor, Five Branches University, Santa Cruz, California  
Chair, Department of Pediatrics, Five Branches University, Santa Cruz, California  
Pediatrics

Dr. Lichun Huang  
World’s top expert in the field of Auricular Medicine  
Recognition of Mastery and Lifetime Achievement Award at the World International Symposium on Auricular Therapy and Auricular Medicine  
Award from the President of Italy, in recognition of the series of the treatments given to him during his visit to China  
Led the delegation of Chinese Acupuncturists to teach Auricular Medicine to doctors in Cuba  
Friendship and Struggle Award and Certificate from Cuba’s President  
Auricular Medicine Specialization

Jerry Alan Johnson  
Master’s Degree in Medical Qigong (China), Hai Dian University, Medical Qigong College of Beijing, China  
DTCM (China), Clinical License, Ministry of Health, China  
Professor; Five Branches University, Santa Cruz, California  
Dean, Medical Qigong Science, Five Branches University, California  
Director, Medical Qigong Clinic, Five Branches University, California  
Founder and Executive Officer; International Institute of Medical Qigong  
Professor; Medical Qigong Science and Philosophy, Henan University of TCM, China  
Overseas Director; Medical Qigong Therapy, Henan University of TCM, China  
Council Board Member, World Academic Society of Medical Qigong, Beijing, China  
Ambassador of Chinese Medical Qigong Therapy to North America: World Health Organization Collaborating Center for Traditional Chinese Medicine, Beijing, China  
External Advisory Committee, Department of Palliative Care and Rehabilitation Medicine, M.D. Anderson Cancer Center, Houston, Texas  
Traditional Chinese Medical Qigong

Daofang Li  
L.Ac.  
PhD (China), TCM, Shanghai TCM University, China  
Former President, Florida Acupuncture Association  
Former Supervisor, Oriental Medicine, Department of Alternative Medicine, Miami Heart Institute, Florida  
Former Instructor and Practitioner; Florida Institute of TCM, St. Petersburg, Florida  
Vice-Director and Professor; Surgical Department, Longhua Hospital Affiliated to the Shanghai TCM University  
Former Chief, Evaluation Panel of Research Project of Breast Cancer and Diseases, China National Committee of Science Gastroenterology

Peng Li  
L.Ac.  
MD (China), Shanghai First Medical College, China  
Postdoctoral Fellow, Department of Acupuncture and TCM, Hua San Hospital, Shanghai, China  
Former Chair and Professor, Department of Physiology, Shanghai Medical University, China  
Allied Health Professional, Department of Medicine, University of California, Irvine  
Research Methodology  
Scientific Foundation of Acupuncture
Shaohua Li  
L.Ac.  
Graduate, TCM, Shanghai TCM University, China  
Former Chief Physician, Department of Obstetrics and Gynecology, Longhua Hospital Affiliated to Shanghai TCM University, China  
Director, Shanghai Acupuncture Clinic, Oakland, California  
Gynecology and Obstetrics  
Women's Health and Endocrinology Specialization

Dawn Motyka  
M.D.  
MD, University of California, Davis  
Former Speaker, Radio Show “Health Matters”  
Member, Quality Assurance Committee, Dominican Hospital, Santa Cruz, California  
Treasurer and Board of Directors, Santa Cruz County Medical Society, California

The DAOM Program

The Doctor of Acupuncture and Oriental Medicine (DAOM) program is designed for licensed acupuncturists interested in developing advanced TCM knowledge and skills, achieving a medical specialization, and gaining valuable experience in research and teaching.

As a DAOM student you will:
- Expand and refine your knowledge and expertise in TCM patient care
- Gain the clinical treatment skills needed to work in an integrative medical setting
- Build professional relationships with TCM clinicians and other healthcare providers
- Develop yourself as a leader in the field of TCM as a practitioner, educator or researcher

Taught by renowned TCM experts, clinical specialists, and M.D.’s, this innovative and comprehensive program provides rigorous training in advanced concepts of TCM and biomedical theory. Integrating Western medicine and TCM knowledge, you will become skilled in diagnosis of disease as well as the pattern differentiation techniques practiced in TCM.

The DAOM program is offered at the San Jose campus in both English and Chinese.

Program Highlights

A Modern Integrative Medical Curriculum
Our modern integrative medical curriculum bridges the gap between TCM and biomedicine approaches, promoting cross-referrals and inter-disciplinary medicine. The program covers both the TCM and Western medicine perspective of a core TCM practice and each medical subspecialty of family medicine.

Clinical Training with TCM and Western Medicine Experts
Receive extensive clinical training from renowned senior TCM practitioners and biomedicine experts from China, the U.S., and Europe in the following clinic environments: the Five Branches health centers, local community clinics and hospitals, and major hospitals affiliated with our sister colleges in China.

Medical Specialization
The DAOM curriculum emphasizes advanced clinical TCM with broad exposure to family medicine (the core of a L.Ac.’s practice) and the option to specialize in:
- Women’s Health and Endocrinology
- Neuromuscular Medicine and Pain Management
- Auricular Medicine (optional)
- Cerebro-Cardiovascular Diseases (optional)

Earn a Ph.D. in China
Upon completion of the program, you will be awarded a Doctor of Acupuncture and Oriental Medicine degree by Five Branches University. With an additional year of study, partially in China, you may earn a Ph.D. degree awarded by one of our sister colleges: Zhejiang Chinese Medical University, Tianjin University of Traditional Chinese Medicine, and Liaoning University of Traditional Chinese Medicine. The Ph.D. degree is acknowledged by foreign credentials review agencies as equivalent to a Ph.D. in the U.S.
Research and Capstone Project
Learn how to assess evidence-based medicine, review new trends in TCM research and enhance your TCM scientific thinking skills. The capstone, an extensive research project in the final phase of the program, will allow you to demonstrate mastery in formal presentation, clinical evaluation and practice, and research capability. The capstone project, focused on your chosen field of specialization, will require quantitative and qualitative analyses as well as inductive and deductive research methods.

Meets California and National CEU Requirements
Almost all DAOM courses offered throughout the program fulfill both California and national CEU requirements.

Mission and Purpose
The Doctor of Acupuncture and Oriental Medicine (DAOM) program aims to develop highly-skilled TCM clinical practitioners, educators and researchers, to advance the practice of TCM as an independent and self-sufficient medical modality, and to promote integrated or collaborative clinical practice, education and research.

Educational Objectives
The educational objectives of the DAOM program provide guidelines for the development of the curriculum, assessment of the program’s quality and success, and the measurement of the achievements of our graduates. Upon completion of the program DAOM graduates will be trained to:
• Apply advanced TCM knowledge to prevent, diagnose and treat disease
• Apply an understanding of the philosophy and theory of classical Chinese medical texts to support the well-being of patients and contribute to the maturation of theories into modern form through original thought
• Apply specialization training to raise the level of patient care, teaching, and research
• Apply scientific research methods and scholarly thinking to advance development in the field of TCM
• Apply biomedical scholarship relevant to TCM practice to integrate and collaborate with TCM practitioners, other health-care practitioners, and patients.

**December 21**
Capstone Presentation

**January 7, 2016**
Fall Trimester Ends

Please contact DAOM program administration for the academic calendar of the DAOM program taught in the Chinese language.
The Doctor of Acupuncture and Oriental Medicine (DAOM) program is 1280 hours in length, comprising 614 didactic hours and 666 clinical hours. DAOM courses are offered in a monthly modular format of three- to four-day weekend intensives, with a flexible clinical training schedule. This format allows you to earn a doctorate degree in as little as 24 months while maintaining a full-time practice.

Introductory Western Medicine Module

If you earned a Masters’ degree or Master’s level equivalent with less than 2800 total hours, you will be required to take the 48-hour Introductory Western Medicine Module to fulfill program prerequisites. This module must be completed within the first three months of the program.

Students may petition to receive credit for the Introductory Western Medicine Module via a challenge examination. Upon qualification, you will be provided with the course syllabus to aid in preparation for taking the examination. The passing score for a challenge examination is 90%. This course can be challenged by examination only once. If you fail to pass the examination, you will be required to enroll in the course at the full tuition cost. Credit via challenge examination is not permitted for other program related courses.

The DAOM program includes 24 modules: 22 modules in Foundation, Clinical Medicine, and Specialization, and two modules in Research Methodology.

Introductory Western Medicine Module

DPM 001

This intense 48-hour module supplements Western medical knowledge necessary to complete future modules and participate in integrative and Western medicine clinical settings. It will address major areas of disease pattern diagnosis in a problem-oriented format and will consist of lecture, group discussions, and guided readings. Topics such as pharmacology, pathophysiology, and clinical red flags will be discussed at a practical level. A review of laboratory and physical examination procedures will also be included to give students an idea of modern medical diagnostic tools and techniques. At the end of this course, students will have more understanding of Western medicine concepts, diagnosis, and therapy. Students will have supplemented modern medicine knowledge and be able to understand diseases and conditions from the Western medicine perspective.

Prerequisite: None

Foundation Modules

Enhance your clinical reasoning skills and gain a deeper understanding of the classics, the theories and techniques of case management, and modern acupuncture and TCM research. The Foundation modules include non-clinical advanced skill courses appropriate for the DAOM program.

Case Management and Presentation

DFR 101

This course opens new horizons in the communication between Western medicine and TCM practitioners, and teaches the steps required for proper management of patients’ cases. You will learn how to review medical literature on a particular condition or disease and gather information for presentation and discussion. Upon completion of this course, you will be able to make a presentation of medical cases in terms acceptable to the scientific community. Through the extensive review of medical literature on a certain condition, you will become well educated on the topic you present.

Prerequisite: Master level courses

Pedagogy

DFR 201

This course covers basic modern techniques of teaching in both classroom and clinical settings, enabling you to transmit your knowledge and experience in an educational environment. Upon completion of this course, you will have gained the skills necessary to become a classroom teacher of TCM as well as a clinical training supervisor.

Prerequisite: Master level courses
Scientific Foundation of Acupuncture
■ DFR 301
This course introduces the effects of acupuncture on common medical conditions based on ongoing evidence-based research from well-established integrative medicine research centers. You will learn basic research on the mechanisms of acupuncture, and will critique acupuncture literature for its credibility and design. You will be introduced to experimental and clinical acupuncture studies enabling you to evaluate and utilize information from these studies in the future. Upon completion of this course, you will have gained understanding of the scientific background and mechanisms of acupuncture in common medical conditions such as cardiovascular disease, women’s health issues, pain, etc.
Prerequisite: Master level courses

Co-management of Herbs, Formulas, and Pharmaceuticals
Herb-Drug Interaction
■ DFR 401
As a result of cooperation between Chinese and Western medical modalities, the potential interactions between Chinese herbs/formulas and pharmaceutical drugs have become a growing topic of concern. This course addresses the different aspects of herb/formula/drug interactions, ranging from complementary to toxic. Upon completion of this course, you will understand the pharmacological nature of medicinal herbs/formulas, and demonstrate awareness of potential interactions between medicinal herbs and pharmaceutical drugs.
Prerequisite: Master level herbology and formula courses

Herbal Alternatives to Drugs
■ DFR 402
The practice of medicine is now at a crossroads: countless patients are taking prescription drugs yet prefer to be treated by a more natural approach. This course will address the most commonly prescribed medications, their actions, side-effects, and herbal alternatives. Proper protocols for time frames and herbal dosages will be discussed, leading to the safe reduction of pharmaceutical usage. Upon completion of this course, you will be able to describe the indications, mechanisms of action, pharmacokinetics and side effects of drugs and herbs. You will recognize herbs with functions similar to drugs, according to clinical research, and will be able to differentiate the advantages and disadvantages of both herb and drug therapy. You will be able to distinguish situations when drugs are superior to herbs and when herbs can be used as an alternative to drugs for similar or better therapeutic results, and/or with fewer side effects.
Prerequisite: Master level herbology and formula courses

TCM Classics and Contemporary Applications
Clinical Applications of Shang Han Lun and Jin Gui Yao Lue
■ DFR 501/DFC 501
This course is an in-depth study of Shang Han Lun and Jin Gui Yao Lue theories and formulas. In both classics, the theories and formulas are discussed with emphasis on their relevance to modern uses, contemporary research, and clinical applications. Upon completion of this course, you will have a greater knowledge of the history, development, and theories of TCM, an understanding of these two classical texts at a more scholarly level, and will be skilled in applying and modifying classical formulas according to patient conditions.
Prerequisite: Master level classics and clinical courses
Clinical Applications of Lingshu

This course relates modern acupuncture practices and protocols with ancient wisdom found in the Lingshu classic. The theory behind acupuncture practices, pattern differentiation, pathology of channels, complications of pathology of channels, treatment protocols, and acupuncture techniques will be covered. New ideas on treating common but complex disorders, such as stroke, will be introduced. These new treatment ideas will have roots in the Lingshu classic, normally undergoing decades of laboratory and clinical research in China, yet have proven to yield very good results from evidence-based medicine. Upon completion of this module, you will learn how the wisdom in ancient TCM classics can be practiced in today’s clinic and how to apply new treatment principles rooted from the Lingshu classic in your practice.

Prerequisite: Master level classics and clinical courses

Clinical Applications of Neijing

The classics of Traditional Chinese Medicine have shaped the profession into what it is today. The classics present the original basis for the theory, diagnosis, pattern differentiation, and treatment formulation of TCM. This course is a survey of Huang Di Neijing, covering the historical background and philosophical perspective of Neijing, especially the preface of Wang Bing, who restored Su Wen in 751, offering a better understanding of the concepts in Neijing. In this course, the classics’ channel syndromes and treatment are discussed with emphasis on their relevance to modern use, contemporary research, and clinical applications. Upon completion of this course, you will have a deeper understanding of the history, development, and theories of TCM and will have learned how to select the best points and meridians to treat patients according to ancient wisdom revealed by the Neijing.

Prerequisite: Master level classics and clinical courses

Research Methodology

Learn how to assess evidence-based medicine, review new trends in TCM research and enhance your TCM scientific thinking skills. Research Methodology courses provide you with the knowledge and skills to complete the research pre-proposal, proposal and capstone project to fulfill graduation requirements, and to perform research of publishing quality.

Research Methodology I–IV

This module introduces evidence-based medicine for clinical research and provides the knowledge required for writing and presenting the capstone project. Protocol design, hypothesis development, and gathering of evidence, including decision analysis will be discussed. The most common statistical methods will be reviewed as well as the design of clinical trials, human subject issues, and adverse effects. Peer-reviewed journals will be examined in detail and with practicality. Module IV of the series will introduce current TCM research in the U.S. Upon completion of this module, you will be able to design, direct and implement TCM clinical research projects, and critique professional publications to assess useful articles and journals.

Prerequisite: Master level research courses

Clinical Medicine Modules

Clinical Medicine Modules cover the most relevant health conditions seen in a modern day clinic. Classroom lectures are designed to be clinic-oriented, with close relation to actual cases. Clinical Medicine modules present an in-depth discussion of clinical medical fields to deepen the student’s theoretical understanding and therapeutic skills in TCM Clinical Medicine. The clinical application of classical TCM texts, modern integrative medicine approaches, and current research in both Chinese and Western clinical medicine is critically reviewed.

*Clinical Medicine courses and course hour allocation are subject to change according to faculty availability.
**Orthopedic Medicine and Pain Management**  
■ DCE/DCC 101

This module provides an advanced presentation of the etiology, differential diagnosis, and treatment of various diseases of the musculoskeletal system and orthopedic disorders as well as pain management as it relates to orthopedic conditions. TCM theories related to musculoskeletal conditions as well as international scientific differential diagnosis will be discussed. Faculty will share their personal clinical experience in treating physical injuries, orthopedic conditions, and pain management.

Upon completion of this module, you will have general skills to perform orthopedic examinations, and to use imaging technology to aid in the diagnosis and determination of the most effective treatment protocols.

**Prerequisite:** Master level clinical courses

**Dermatology and External Diseases**  
■ DCE/DCC 201

This module covers the etiology, pathogenesis, syndrome differentiation, treatment principles and treatment therapies of the most common dermatological disorders. These disorders include viral dermatitis, herpes simplex, herpes zoster, hives, and eczema. A TCM clinic demonstration on treating dermatologic disorders is included, enabling you to have practical hands-on experience.

Upon completion of this module, you will be able to perform basic diagnosis and pattern differentiation on the most common dermatologic disorders and give corresponding treatments, viewing the most common dermatologic disorders from both a TCM and Western medicine perspective.

**Prerequisite:** Master level clinical courses

**EENT**  
■ DCE/DCC 202

This module will familiarize you with the etiology, pattern differentiation, and treatment principles of common disorders of the eyes, ears, nose, and throat (EENT). An integrative approach to common conditions such as myopia, hordeolum, tinnitus and deafness, otopyorrhea, rhinitis, toothache, laryngitis and pharyngitis will be discussed in-depth. You will also learn to recognize red-flags that might suggest a more serious pathology, requiring referral.

Upon completion of this module, you will have gained an in-depth understanding of how to perform an EENT-related physical exam, assess and diagnose EENT conditions from both a TCM and Western medicine perspective, and treat these conditions with acupuncture and herbs.

**Prerequisite:** Master level clinical courses

**Diabetes**  
■ DCE/DCC 301

This module is designed to acquaint you with the presentation, evaluation, and management of patients with Type 1 and Type 2 diabetes. This module reviews the body’s control mechanisms for insulin production and how insulin acts to maintain metabolic homeostasis. Faculty will present case studies illustrating abnormalities in the function of the endocrine system, particularly insulin production.

Upon completion of this module, you will have the knowledge to diagnose diabetes from a TCM and Western medicine perspective, identify its TCM patterns, formulate treatment plans, and prescribe both herbal and acupuncture treatments.

**Prerequisite:** Master level clinical courses
Gastroenterology
DCE/DCC 302
This module reviews diagnosis of pathologies of the digestive tract, liver and pancreas. Topics are presented through an integrative approach, where differential diagnosis is performed based on both symptomatic and pathological viewpoints. The symptomatic viewpoint will include signs and symptoms such as vomiting, hiccup, diarrhea/constipation, and gastric/abdominal pain while the pathologic approach will be disease oriented (IBS, hernia, etc).

Upon completion of this module, you will be able to recognize red flags and make necessary referrals, perform disease diagnosis of gastro-intestinal conditions through Eastern/Western integrative approaches, identify their patterns, devise treatment plans, and administer appropriate herbal and acupuncture treatments.

Prerequisite: Master level clinical courses

Cardiovascular Diseases
DCE/DCC 304
This module gives a general overview and evaluates recent advances in cardiovascular medicine as well as differential diagnosis of TCM patterns. You will become familiar with the use of various cardiovascular imaging modalities (echo, nuclear, catheterization, CT, MRI). Emphasis will be given to the pathophysiology of cardiac illness, physical diagnosis, electrocardiography (EKG reports) and patient management. Topics include: valvular heart disease, infective endocarditis, pulmonary hypertension, coronary artery disease: acute and chronic, the electrical system of the heart, myocardial, pericardial and vascular diseases, congenital heart disease, and heart failure.

Upon completion of this module, you will be able to recognize coronary red flags and risk factors, diagnose cardiovascular conditions according to disease and pattern differentiation, and treat them with acupuncture and herbs.

Prerequisite: Master level clinical courses

Neurology
DCE/DCC 305
This module introduces a method for integrating the patient interview and neurological examination with an analytical approach to neurological diagnosis and management. Cases are presented and discussed in terms of both TCM and Western medicine approaches. This module is designed to provide further understanding of the basic principles of neurological diagnosis, including the evaluation of neurological signs and symptoms and laboratory procedures for conditions such as insomnia, epilepsy, facial paralysis, wind stroke, headache (including trigeminal neuralgia), Alzheimer's disease, Parkinson's disease, and wei syndrome.

Upon completion of this course, you will demonstrate a general knowledge of the evaluation of neurological disorders and able to determine the most effective treatment protocol using acupuncture and herbal formulas.

Prerequisite: Master level clinical courses

Allergy and Immunology
DCE/DCC 307
Proper function and malfunction of the immune system will be reviewed from both Western and Chinese medical points of view. Allergy and asthma, irritable bowel syndrome as well as the more complex autoimmune disorders such as lupus and other rheumatic pathologies will be discussed.

Upon completion of this module, you will have gained an in-depth understanding of how biomedicine and Chinese medicine view the function and malfunction of the immune system. You will also be able to apply treatments for the allergy and immunology conditions taught in class and analyze similar conditions based on materials presented.

Prerequisite: Master level clinical courses
Gynecology and Obstetrics
■ DCE/DCC 401
This module provides in-depth knowledge and skills to diagnose gynecological diseases from TCM and Western medicine perspectives, identify disease patterns, devise treatment plans, and administer appropriate herbal and acupuncture treatments. Faculty will share valuable clinical experiences in the treatment of pre/postmenstrual conditions, dysmenorrhea conditions, infertility, and pre/post-partum care.

Upon completion of this module, you will have gained competency in reading and evaluating lab reports, and improvement in gynecology and obstetrics clinical performance

Prerequisite: Master level clinical courses

Pediatrics
■ DCE/DCC 501
This module presents the interrelation between the child’s environmental, social, and educational factors and his/her growth and development. It emphasizes the unique socio-behavioral aspects of interacting with the pediatric-family population. You will be exposed to management of common pediatric diseases such as immunity and allergic conditions, gastrointestinal tract disorders and respiratory diseases, and psychiatric disorders. Other conditions such as enuresis and ear infection will be discussed as well as the use of pediatric tuina and acupuncture needling techniques.

Upon completion of this module, you will acquire understanding of the factors involved in the normal physical and mental evaluation of a child from birth to adolescence, and will be able to recognize and understand common childhood diseases, their diagnosis, treatment, and prevention.

Prerequisite: Master level clinical courses

Psychiatry and Psychotherapy
■ DCE/DCC 601
This module presents an overview of psychopathology and psychotherapy techniques. It examines the development of human behavior across the life span. Within a developmental context, you will explore the dynamics of human behavior as determined by intrapersonal systems, interpersonal connections, societal patterns, and cultural influences and as altered by significant life events. Topics such as applied psychotherapy techniques, and depth psychotherapy techniques for manic-depressive syndrome will be discussed. Lectures and clinical training will be from both TCM and Western medicine perspectives to allow you to have a more comprehensive understanding of this fast growing field.

Upon completion of this module, you will be able to practice basic psychotherapy techniques in clinic, confidently handle patients with psychological complaints, and select appropriate herbal and acupuncture treatments.

Prerequisite: Master level clinical courses

Tung’s Acupuncture in Pain Management
■ DCE/DCC 801
This module provides a comprehensive discussion on how pain is treated using principles of Master Tung’s acupuncture. Starting from an overview of the foundation principles of Tung’s acupuncture, the module gradually enters into the more specific pains. Tung’s principles in the treatment of pain are introduced in a systematic way to guide you into the deeper and practical use of these points. The features of Tung’s extra points and pattern differentiation are discussed as an overview to the theoretical foundation of Tung’s extra points. The specific pains in different parts of the body, including those caused by viscera diseases, follows the overview. Clinic demonstrations on how to practically use the principles and technique will enable you to have practical hands-on experience.

Upon completion of this module, you will have learned the basic principles and academic thought of Master Tung’s acupuncture, allowing you to practice these techniques in your clinic to treat various pain conditions.

Prerequisite: Master level clinical courses
The Abdominal Acupuncture module focuses on the treatment of chronic musculoskeletal pain, and diseases of the neck, back and upper and lower extremities. You will learn the basic theory of this therapeutic system, related to its clinical application, point location techniques, point functions, and the treatment application protocol. Point formulas for common but complex neurological and orthopedic disorders such as stiff neck, cervical spondylosis, lumbar vertebral disease, degenerative bone and joint disease of the knee, and sciatica will be discussed. Evaluation techniques for these issues will also be reviewed in detail.

**Prerequisite:** Master level clinical courses

---

### Five Element Acupuncture

DCE/DCC 802

In this module, you will learn to apply the Five Elements to diagnose and treat the qi that underlies our inner nature. You will explore the elements in greater depth in terms of Jungian archetypal models, the eight trigrams of the I Ching, and their corresponding family of the Twelve Officials. There will be multiple practical exercises to bring these concepts into their clinical applications. This module will cover how imbalances in the Officials express themselves in the patients’ physical, mental, emotional, and spiritual lives. You will explore how imbalances in one Official affect the associated elemental pair, its Ko cycle pair, and the creative Shen cycle.

Upon completion of this module, you will have gained a deeper understanding of the relationships between Five Element theory and other classical Western and Eastern models, especially addressing emotional issues and spiritual levels. Your skills in choosing points will be increased, which will support the patient’s psychological and spiritual well-being. You will also develop a more personal relationship with the Officials, which will enhance your ability to recognize and treat the Officials directly.

**Prerequisite:** Master level clinical courses

---

### Abdominal Acupuncture

DCE/DCC 807

This module is a practical introduction to Abdominal Acupuncture, a unique therapeutic system created by Prof. Zhi-yun Bo based upon over thirty years of clinical research and his discovery of the prenatal channel system, the Shen Que. Abdominal Acupuncture integrates Western medicine diagnosis with Zangfu pattern identification, using disease-specific point formulas with a manualized treatment procedure protocol. These characteristics improve clinical results, enable reproducibility for clinical research, and make it safe and virtually painless. It is ideal for harmonizing organ qi and blood and treating chronic disease.

The Abdominal Acupuncture module focuses on the treatment of chronic musculoskeletal pain, and diseases of the neck, back and upper and lower extremities. You will learn the basic theory of this therapeutic system, related to its clinical application, point location techniques, point functions, and the treatment application protocol. Point formulas for common but complex neurological and orthopedic disorders such as stiff neck, cervical spondylosis, lumbar vertebral disease, degenerative bone and joint disease of the knee, and sciatica will be discussed. Evaluation techniques for these issues will also be reviewed in detail.

**Prerequisite:** Master level clinical courses
Integrating Chinese Medicine into Contemporary Healthcare
■ DCE/DCC 902

This course consists of two presentations followed by discussion and debate, to engage students to become more self-reflective on issues of the Chinese medicine research process, to open new avenues for how clinical research in Chinese medicine might be conducted. These two presentations center on controversial issues surrounding TCM research in an evidence-based healthcare setting: (1) From hierarchies to process in Chinese medicine research, and (2) Emergent versus enforced consensus: interdisciplinary action research as new model for Chinese medicine research.

Upon completion of this module, you will have gained an understanding of research in relation to Chinese medicine in a manner that is both theoretically meaningful and clinically relevant to your own practice. Using the research on menopause as an example, you will learn an interdisciplinary research program that places the need of practitioners and patients first.

Prerequisite: Master level clinical courses

Treatment Strategies for Internal Organs
■ DCE/DCC 903

In this module, you will review 16 strategies for treating the Spleen, emphasizing the influence of the “Yishui current” of Zhang Yuansu and his student Li Dongyuan, the continuation of their ideas in the doctrines of the “warm supplementation current” associated with physicians such as a Zhang Jiebin and Zhao Xianke, and their later critics such as Ye Tianshi.

Upon completion of this module, you will be able to treat Spleen disorders more effectively, using the 16 strategies, and will have gained an in-depth understanding on the transformation of ideas from the “Yishui current” to “Warm Supplementation current” through history.

Prerequisite: Master level clinical courses

Constraints and Emotion-Related Disorders
■ DCE/DCC 904

Today, Traditional Chinese medicine (TCM) is practiced worldwide, rivaling biomedicine in terms of its globalization. One of the most common TCM diagnoses is “Liver qi constraint,” commonly treated by an herbal formula dating back to the 10th century. In everyday TCM, biomedical disease categories such as depression or anxiety, and popular disease categories such as stress are often conflated with the Chinese medical notion of constraint. Medical anthropologists, meanwhile, argue that constraint reveals to us a distinctive aesthetics of constructing body/persons in Chinese culture, while psychologists seek to define constraint as a distinctive psychiatric disorder distinctive from depression and anxiety. All of these actors agree in defining constraint as a concept dating back two thousand years to the very origins of Chinese medicine. This module disassembles the articulations by means of which these different facts about constraint are constructed. It shows how ideas about constraint as a disorder caused by the penetration of external pathogens into the body were gradually transformed from the eleventh century onward into constraint as an emotion-related disorder, while treatment strategies were adjusted to match perceptions about body/self that developed among the gens-try elite of southeast China in late imperial China.

Upon completion of this module, you will understand how constraint as a disorder, caused by the penetration of external pathogens into the body, were gradually transformed from the eleventh century onward into constraint as an emotion-related disorder.

Prerequisite: Master level clinical courses

Specialization Modules

Specialization modules provide you with the opportunity for advanced academic and clinical training in a chosen field of expertise. You will choose two specializations in which to perform in-depth study through advanced lectures in TCM and Western medicine. You will observe leading practitioners with decades of experience treating patients in a clinical setting and consult with expert faculty when dealing with complicated cases. This extensive training provides an Eastern/Western integrative approach to improve your ability to practice TCM as an independent and self-sufficient medical modality.

* Auricular Medicine and Cerebro- and Cardiovascular Diseases modules are offered based on faculty availability.
Women's Health and Endocrinology I–III  
■ DSE/DSC 101–301

TCM has a unique approach to treating disease related to women’s health. Although both TCM and Western medicine understand the importance of homeostasis for proper bodily function and health maintenance, they have different ways of reaching this objective. TCM treatments, whether herbal or acupuncture, are aimed at restoring the body’s inherent balance, while Western medicine often utilizes hormonal replacement therapies.

In this series, an integrative approach to complicated issues in women’s health and endocrinology such as infertility, pre/post-menopausal syndromes, gynecological benign tumors, polycystic ovarian syndrome, pregnancy disorders, diabetes, thyroid dysfunction, etc. will be reviewed extensively. Upon completion of this specialization series, you will have gained the knowledge to diagnose and treat gynecological and endocri nal complex conditions with increased confidence.

Prerequisite: Master level courses

Auricular Medicine I–III (optional)  
■ DSE/DSC 103–303

Auricular medicine is a scientific medical practice which can diagnose and treat disease solely through the ears. More than 200 diseases and symptoms of past and present medical history can be diagnosed by studying the ear; future diseases and symptoms can also be predicted. This specialization series provides in-depth knowledge of auricular medicine as taught by Dr. Lichun Huang (www.earmedicine.us) beginning with fundamental concepts and building into advanced practices in auricular medicine.

Upon completion of this specialization series, you will have a deeper understanding of the theoretical and clinical application of auricular medicine, from basic concepts and specific auricular points to diagnostic and treatment methods. You will be skilled in the identification and location of auricular points, methods of diagnosing disorders, as well as how to use auricular medicine in your clinical practice. This series must be taken in order of sequence.

Prerequisite: Master level courses

Neuromuscular Medicine and Pain Management I–III  
■ DSE/DSC 102–302

In this specialization series, you will be introduced to the concept of physical medicine and rehabilitation, learning to manage patients with orthopedic and neurological conditions from the diagnosis, handling, support, and treatment point of view. Emphasis is placed on pain management as it relates to post-traumatic orthopedic care, degenerative conditions, and entrapment neuropathies, including discussion on the evaluation and treatment of neuro-degenerative and post-stroke conditions.

Clinical training offered by leading practitioners in the field of neuromuscular medicine will provide you with invaluable experience to deliver comprehensive care, utilizing both acupuncture and other treatment modalities, to patients with neurological and orthopedic disorders. Upon completion of this specialization series, you will be able to advance your clinical practice of neuromuscular medicine and pain management to a higher level.

Prerequisite: Master level courses

Cerebrovascular and Cardiovascular Diseases I–III (optional)  
■ DSE/DSC 106–306

Cerebrovascular and cardiovascular disease is among the leading cause of death and disability in today’s world. Although Western medicine has its merits in dealing with these conditions, TCM has its own unique advantages in helping patients recover from its devastating effects. This specialization series discusses cerebrovascular and cardiovascular disease from an integrative perspective, emphasizing the advantages and disadvantages of both TCM and Western medicine in dealing with these disorders and their long-term sequelae. The concept of “Awakening the Brain and Opening the Orifices” in treating post-stroke patients will be discussed in the classroom while extensive practice of treatment techniques will be performed in clinic.

Upon completion of this specialization series, you will be able to master the different approaches TCM and Western medicine take in treating patients with cerebro- and cardiovascular disease, and will develop the mastery of “Awakening the Brain and Opening the Orifices” clinical techniques to treat post-stroke patients.

Prerequisite: Master level courses
Practicum Training

Practicum training provides you with the opportunity to practice what has been learned throughout the DAOM program. Clinical and Specialization Practicum allows you to practice clinical techniques and protocols under the guidance of a faculty member or specialist in the clinic, a hospital in China, or in your own practice. Professional Practicum provides training in other valuable skills cultivated by the DAOM program such as teaching, clinical supervision, and research.

Clinical Practicum

■ DTC 101

In Clinical Practicum, you will spend 150–300 hours in the clinic treating patients, applying what you previously learned in the Clinical Medicine modules. Clinical practicum hours can be completed through training under a preceptor, in Doctoral Grand Rounds, with Five Branches faculty, in a China externship, or in independent study. Specific details and restrictions are outlined in the Clinical Practicum section of the program catalog.

Prerequisite: Master level clinical courses

Specialization Practicum

■ DTC 201

In Specialization Practicum, you will spend an additional 160 hours in clinical training, practicing the techniques and treatment protocols of your chosen specialization. Specialization practicum hours can be completed through training under a preceptor, in Doctoral Grand Rounds, with Five Branches faculty, in a China externship, or in independent study. Specific details and restrictions are outlined in the Specialty Practicum section of the program catalog.

Prerequisite: Master level clinical courses

Professional Practicum

■ DTC 301

In Professional Practicum, you will have the opportunity to put the skills and knowledge you learned in the Foundation modules into practice. You will fulfill 50–200 hours teaching in the classroom, supervising in the clinic, in the role of administrative services, providing quality assurance, and through clinical research activities. Specific details and restrictions are outlined in the Professional Practicum section of the program catalog.

Prerequisite: Master level clinical courses

Capstone Project

In the final phase of the program you will complete an extensive research project to demonstrate mastery and synthesis of the knowledge and skills acquired in presentation, clinical evaluation and practice as well as research capability. The capstone project is implemented using quantitative and/or qualitative analyses as well as inductive and/or deductive research methods. You will apply evidence-based knowledge of preventive, therapeutic and rehabilitative interventions to individuals, families and/or population groups. The capstone project is a comprehensive evaluation and assessment of your achievements in the Doctoral Program.

Capstone Proposal Presentation

■ DRR 701

The Capstone Proposal Presentation is one of the first steps to help you articulate your research project. You will be asked to propose a project topic of your interest including: why this topic is important to you, your plans for implementation, and the results you expect. You will present this project in its preliminary proposal stage and receive feedback from the panel and audience consisting of fellow students in class.

Prerequisite: Submission of capstone pre-proposal

Capstone Project Paper/Presentation and Defense

■ DRR 501, 601

After your capstone proposal presentation has been reviewed and approved, you will perform extensive research and literature review on your chosen topic. You are expected to analyze your research from both TCM and Western clinical medicine perspectives. The Capstone Project Paper/Presentation and Defense will allow you to demonstrate the ability to comprehensively synthesize the skills and knowledge acquired from all the modules you have taken in the program, culminating in the presentation and defense of your research in front of a panel of faculty and class.

Prerequisite: Capstone pre-proposal, capstone proposal, capstone proposal presentation
Earn a PhD in China

Five Branches University offers a joint DAOM/PhD program for students who wish to earn a PhD at one of our four sister colleges in China: Zhejiang Chinese Medical University, Tianjin University of Traditional Chinese Medicine, Liaoning University of Traditional Chinese Medicine, and Fujian University of Traditional Chinese Medicine.

Studies completed in the DAOM program are transferable to the PhD program in China, allowing you to earn a PhD from a China TCM University with only one additional year of study. This PhD degree is recognized by the Chinese government and U.S. foreign credential review agencies as equivalent to a PhD degree in the U.S. The PhD credential may offer doctoral graduates the opportunity to obtain grants and teaching positions in American universities.

Admissions Process

You must indicate your interest in enrollment in the China PhD program at time of enrollment in the DAOM program. To apply please submit the following documents to Five Branches University:

- Photocopy of the picture page of your passport
- Completed PhD Application form
- Passport style photos
- Resumé or CV
- Recommendation letters
- Health examination form
- Non-refundable application fee

The list of application documents required vary slightly depending on the China PhD program you apply to. Please consult with the Five Branches University Director of Foreign Affairs before sending in your application package. Applications need to be submitted within the first six months of entering the DAOM program.

According to regulations of the Chinese Department of Education, the China PhD program is only available to non-Chinese citizens. Those who hold a passport from mainland China, Taiwan, Hong Kong, and Macau are not eligible for the DAOM/PhD joint program.

Specialization Opportunities

You may choose from a wide range of specializations offered by our Chinese sister colleges. Once you designate a specialty you will work closely with Five Branches personnel, the Chinese university, and a supervisor knowledgeable in your chosen specialty. For details on specialization requirements contact the DAOM administration.

Period of Study

The minimum amount of time to complete a China PhD program is three years. You will need to choose a Chinese university, your specialization, and apply within the first six months of enrolling in the DAOM program. The first two years of coursework completed in the Five Branches DAOM program also applies to the coursework for the China PhD program. Each Chinese university has different requirements for their PhD program ranging from: requiring additional coursework, needing to reside in China for six months, and/or visiting the supervisor for one month every year. You are required to complete the China PhD program within six years.

Tuition

The tuition for the China PhD program varies from $10,000 to $21,000 depending on the university chosen. Tuition is payable yearly and covers classroom study, research expenses, PhD advisor fees, and clinical training. Once you have applied for the China PhD program you can withdraw your application at the completion of any year if necessary. U.S. federal financial aid is not available for the PhD program.
Five Branches is interested in enrolling students into the DAOM program who are dedicated to offering exceptional healthcare to the public and who have a strong desire to expand and enhance the field of TCM. If you are a licensed acupuncturist interested in: developing advanced TCM knowledge and skills, learning how to integrate Western medicine with TCM, contributing in the field of TCM research, and/or serving as a teacher to the next generation of Oriental medicine students, you are strongly encouraged to apply.

The DAOM program is offered at the Five Branches University San Jose Campus, located in the heart of Silicon Valley. Easily accessible by highway or air, the San Jose campus is just minutes away from the San Jose Airport. San Jose is a multicultural environment offering you fertile ground for the exploration of TCM and inter-disciplinary medicine.

Courses in the DAOM program are offered once a month during three to four-day long weekends to allow you to earn a doctorate in as little as 24 months, while maintaining a full-time practice. Clinical training is flexible and is scheduled apart from the weekend intensives. Almost all modules of the DAOM program fulfill both California and National CEU requirements.

Visit Five Branches

The best way to experience Five Branches University is to visit. We invite you to meet the individuals who are the essence of our community and to immerse yourself in the environment of our classrooms and health centers, rich in the beauty and culture of Chinese medicine.

The San Jose campus resides in a modern high-rise office building located across from the prestigious Santana Row, within walking distance of sidewalk cafes, luxury shops and beautiful fountains. A welcoming courtyard leads you to the Health Center and University where our doctoral program provides licensed acupuncturists the opportunity to train with TCM and Western medicine experts from China and the U.S.

Campus Visit

A campus visit is the most effective way to get an up-close and personal look at the Five Branches community. Enjoy a personal tour to explore how comfortable the facilities and environment feel to you. Experience a free treatment in our clinic, observe our classes and clinical training, and meet the DAOM faculty, staff and students of Five Branches. This is an excellent opportunity to learn more about the DAOM program, the admissions process, financial aid, and to gain the information necessary to assist you with your decision to attend Five Branches University.

Info Sessions

Attend an info session, held regularly on the second Sunday of every month. Learn what makes the Five Branches DAOM program distinctive from other programs, and become informed about the exciting growth in the field of Chinese medicine. Speak with DAOM staff to gain a better understanding of the program as well as the social community you will enjoy at Five Branches. Contact us to schedule a campus visit or to sign-up for an info session.
Request Information
If your schedule does not allow you to visit at this time and you would like to receive more detailed information about the DAOM program, please call or email our admissions staff. We are happy to answer any questions you may have.

As a prospective student, you are encouraged to review this catalog prior to signing an enrollment agreement. You are also encouraged to review the School Performance Fact Sheet, which must be provided to you prior to signing an enrollment agreement.

Applying to Five Branches
Once you have made the decision to enroll in the Doctor of Acupuncture and Oriental Medicine program you are now ready to begin the application process.

Trimester Admissions
Applications are reviewed throughout the year. New entering students are accepted on a trimester basis, in September, January, and May. Completed applications and supporting documents must be received two weeks before the entrance date to allow time for processing.

2015 Application Due Dates and Entrance Dates: English Program
January 2015 Entrance (Spring Trimester)
   Application Due Date: December 26, 2014
   Entrance Date: January 9, 2015
May 2015 Entrance (Summer Trimester)
   Application Due Date: May 1, 2015
   Entrance Date: May 15, 2015
September 2015 Entrance (Fall Trimester)
   Application Due Date: August 28, 2015
   Entrance Date: September 11, 2015

2015 Application Due Dates and Entrance Dates: Chinese Program
January 2015 Entrance (Spring Trimester)
   Application Due Date: December 19, 2014
   Entrance Date: January 2, 2015
May 2015 Entrance (Summer Trimester)
   Application Due Date: May 1, 2015
   Entrance Date: May 15, 2015
September 2015 Entrance (Fall Trimester)
   Application Due Date: August 28, 2015
   Entrance Date: September 11, 2015

Standard Admissions
Applicants who have a Master’s degree (or Master’s level diploma) in TCM or Oriental Medicine from an ACAOM-accredited or ACAOM-candidate program, with at least 2800 hours, will be considered for admission to the DAOM program.

Special Admissions
Applicants with the following educational background may be considered for special admission to the DAOM program:
• Master’s degree (or Master’s level diploma) in TCM or Oriental Medicine with less than 2800 hours from an ACAOM-accredited or ACAOM-candidate program
• Master’s degree (or Master’s level diploma) in Acupuncture from an ACAOM-accredited or ACAOM-candidate program
• Apprenticeship route licensed practitioners with at least five years of documented full-time clinical experience
• Applicants who do not otherwise meet the criteria for standard admission with proper demonstration of experience equivalency

Applications indicating a deficiency in education hours will be evaluated based on three factors: formal education hours, clinical experience, and the level of knowledge and skills in Western medicine. Applicants who fall under the Special Admissions category are required to take the 48-hour Introductory Western Medicine Module or the challenge exam to complete educational requirements for the DAOM program. Applicants with a Master’s degree (or Master’s level diploma) in Acupuncture are required to satisfactorily complete the ACAOM’s Master’s core curriculum
requirements for herbal training through an ACAOM-accredited Oriental medicine program.

Non-Matriculating Students
The admissions procedure and entrance requirements for non-matriculating applicants are the same as for degree-seeking applicants. Non-matriculating students may request a change of status to become degree-seeking students at any time during the program.

Part-time Students
Students who cannot commit to the full-time DAOM program and plan on completing the program in more than two years are considered part-time students. Part-time students must meet with the Program Coordinator to plan their program of study, and complete the program within four years.

Transfer Credit
Limited transfer credit may be awarded for coursework from an accredited institution that supports the Doctoral program's objectives and meets the standards for completion of the Doctoral program. No more than one-third of the credits beyond the Master's level program can be transferred. Transfer credit is subject to 15% of the current DAOM tuition charge per transferred module.

Transfer Credit Earned through Challenge Examination or Achievement Tests
Credit earned through assessment or achievement examinations at other Traditional Chinese Medicine schools are non-transferable. Transfer credit is not available for work or life experience.

Completing the Application for Admission
To be considered for admission to Five Branches University, the following items are required:
1. Application Form: use your full legal name on all admission documents
2. Passport-style Photograph: recently taken
3. Statement of Purpose: one-page typewritten
4. Resume: updated to present
5. Two Letters of Recommendation sent directly to Five Branches University
6. Official transcripts from all AOM and healthcare-related college/university coursework in university-sealed envelopes
7. Copy of Master's level diploma in TCM, Oriental Medicine, or Acupuncture
8. Copies of California L.Ac. pocket license, state license or national certifications (if applicable)
9. Copy of valid malpractice insurance (if applicable)
10. Non-refundable $65 application fee, payable in check or money order to Five Branches University

Additional documents are required for international applicants. For more detailed information refer to the Five Branches University website: http://www.fivebranches.edu/doctorate-daom/doctorate-admissions/49

The Admissions Process
Admission Interview
Once your application package and all supporting documents have been received, a phone interview will be scheduled, or you will be invited to Five Branches University for a personal interview with members of the admissions committee. The admissions interview is a mutually beneficial process, allowing you the opportunity to acquire additional information not gained in previous interactions with Five Branches, while the admissions committee can get to know you on a more personal basis.

Application Review
After your interview, your file will be reviewed by the admissions committee. In evaluating applicants, the committee takes into consideration many factors including academic achievement, professional experience, recommendations, accomplishments, personal character and future potential.

Admissions Decision
You will be notified in writing once a decision has been made by the admissions committee, within two weeks after your application review.

Deposit
Upon notification of acceptance you will be asked to reserve your space with an enrollment deposit of $300. The deposit is non-refundable and will apply to your first tuition payment.

Waiting list
If there is not available space in the upcoming DAOM entrance term, applicants may be placed on a waiting list. We will inform you of your position on the waiting list and will notify you if space becomes available. If space is not available, those on the waiting list can elect to have their application brought forward to the next entrance term.
International Applicants

Five Branches University welcomes international applicants from all over the world. We support a multicultural and multilingual environment, offering our Doctorate program in English and Chinese, and our Master of Traditional Chinese Medicine in English, Chinese, and Korean.

Five Branches defines an international applicant as someone who is a citizen or permanent resident of a country other than the United States who wishes to pursue a Master's or Doctorate degree at our university. Five Branches University is authorized under federal law to enroll non-immigrant alien students and complies with all federal guidelines and directives of the U.S. Citizenship and Immigration Services (USCIS).

International applicants follow the same application and admissions procedures as required of resident students, in addition to meeting the international application requirements. We recommend international applicants begin the admissions process six months to one year prior to the desired enrollment date. Tuition and fees for international students are the same as for U.S. citizens and residents. International students are not eligible for U.S. federal financial aid.

International Application Requirements

If you are an international applicant applying for an F-1 student visa through Five Branches University, you must submit the following documents along with the completed application. It is important to write your name (as it appears on your passport) on your application and all supplemental documents.

1. A photocopy of the name and picture page of your passport

2. Transcript evaluation

   If you have completed previous TCM education in another country, you must have your transcripts reviewed by a credential evaluation agency that is a member of the National Association of Credential Evaluation Services, Inc. Transcripts need to be evaluated on a course-by-course basis. The evaluation, containing the total number of earned credits and cumulative GPA, should be sent directly to Five Branches University by the evaluating agency. We recommend World Educational Services (WES), www.wes.org.

3. Test of English as a Foreign Language (TOEFL) and International English Language Testing System (IELTS)

   If you are an international applicant and have completed at least a two year (60 semester credit or 90 quarter credit) baccalaureate level education from an institution accredited by an agency recognized by the U.S. Secretary of Education or from an equivalent English language institution in another country, the Test of English as a Foreign Language (TOEFL) or International English Language Testing System (IELTS) may not be required.

   DAOM Program in English

   If you are applying for the English DAOM program, and your native language is not English, you are required to complete the Test of English as a Foreign Language (TOEFL) internet based test (iBT) or the International English Language Testing System (IELTS) exam. The minimum scores to achieve on these tests are as follows:

<table>
<thead>
<tr>
<th>TOEFL</th>
<th>IELTS</th>
</tr>
</thead>
<tbody>
<tr>
<td>iBT Speaking Exam</td>
<td>Listening Exam</td>
</tr>
<tr>
<td>61</td>
<td>22</td>
</tr>
<tr>
<td>Level 6</td>
<td></td>
</tr>
</tbody>
</table>

<table>
<thead>

<th>IELTS</th>
</tr>
</thead>
<tbody>
<tr>
<td>Speaking Exam</td>
<td>Listening Exam</td>
</tr>
<tr>
<td>26</td>
<td>22</td>
</tr>
<tr>
<td>Level 6</td>
<td></td>
</tr>
</tbody>
</table>
DAOM Program in Chinese
If you are applying for the DAOM program in Chinese you are required to complete the Test of English as a Foreign Language (TOEFL) internet based test (iBT) or the International English Language Testing System (IELTS) exam to measure your ability to communicate with patients in a clinic setting. The minimum scores to achieve on these tests are as follows:

<table>
<thead>
<tr>
<th>TOEFL</th>
<th>IELTS</th>
</tr>
</thead>
<tbody>
<tr>
<td>iBT</td>
<td></td>
</tr>
<tr>
<td>Speaking Exam</td>
<td>45</td>
</tr>
<tr>
<td>Listening Exam</td>
<td>18</td>
</tr>
<tr>
<td>Level 5</td>
<td>15</td>
</tr>
</tbody>
</table>

If you do not meet the minimum English language proficiency requirements prior to enrollment, you may be conditionally admitted with the understanding that you will study English and meet the TOEFL or IELTS requirements before the end of the 12th month in the program.

4. Financial Statement
A financial statement, certified by a financial institution, verifying the availability of at least $23,000 in U.S. dollars. This amount should cover your education and living expenses for one academic year. If you need the university to issue an I-20 for your dependents, you will need to calculate an additional $4,000 for each dependent. In addition, you may want to consider having additional funds for off-campus months and miscellaneous expenses. We recommend having approximately $7,000 for this purpose. If your tuition or living expenses are going to be partially or fully paid by a sponsor, the financial statement must be signed by your sponsor, stating they assume financial responsibility for the designated amount.

5. Health Insurance
International students must provide proof of health insurance coverage prior to student registration. Due to the high costs of medical insurance in the United States it may be advantageous to purchase health insurance coverage in your home country. We recommend you purchase a healthcare policy for yourself and any dependents, with a minimum coverage of $250,000 per incident, and a deductible of no more than $500 per person per year.

Prior to your arrival into the United States, we recommend you obtain from your primary physician medical records for you and your dependents. These should include a medical history describing previous illnesses, surgeries, and records of all immunizations, including those received in childhood. In addition, since dental costs in the United States tend to be considerably higher than most other countries, you are advised to have any necessary dental work completed in your home country prior to your arrival in the U.S.

International Applicants Currently Studying in the U.S.
If you are an international student who is currently on an F-1 student visa, enrolled at another college or university in the U.S., you must submit the following documents along with your application materials:

1. A photocopy of your visa, contained in your passport
2. A photocopy of your I-20 Form

Once you have been accepted to Five Branches University, a Transfer Release Form must be signed by your current school’s admissions office, verifying you have maintained your visa status and are eligible for transfer. Please contact the Five Branches University admissions office to receive a copy of this form.

If you have any questions or need additional information regarding international application requirements, our admissions staff is available to assist you.
Transfer Students

If you are a student enrolled in another DAOM Program and are considering transferring to Five Branches, you can apply for our DAOM program as a transfer student. Five Branches University offers one of the best TCM educational programs in the United States. Our transfer policies ensure that a transfer student’s training from another school will meet the high standards of our DAOM program.

Five Branches accepts transfer students who will be completing at least 2/3 of their DAOM degree at the University.

Transfer Student Application Procedure and Requirements

Transfer students follow the same application and admissions procedures as required of new students, in addition to meeting the transfer student requirements as listed below. If you are a transfer student, transferring to Five Branches University from another TCM college, you must submit the following documents along with the completed application:

1. Cover letter stating your reasons for seeking a transfer from another DAOM program, and a list of the courses you wish to transfer.
2. Letter of recommendation from a previous TCM/Acupuncture instructor, located at the DAOM program you attended.
3. Official transcripts from your previous DAOM program
4. Catalog from your previous DAOM program, stating its approval agencies and accreditation.
5. Syllabus outlining the course content for each course you wish to transfer.

You must submit your admission application by the application due dates (two weeks before the start of each trimester) to allow ample time for review.

Upon acceptance to Five Branches, you will be informed of your placement in the DAOM program, and an evaluation of your transfer credits will be completed by the admissions office. Only coursework completed at the doctoral level prior to enrollment at Five Branches, from an ACAOM-accredited or ACAOM-candidate school is transferable.

Transferring TCM Courses

Transfer credit will be accepted for TCM courses taken from an ACAOM-accredited or ACAOM-candidate DAOM Program, if the courses are equivalent in content to Five Branches DAOM program courses.

Transferring Western Medicine Courses

Only western medicine courses taken at the doctoral level prior to enrollment at Five Branches may be transferred to fulfill part or the entire DAOM Western medicine requirement. Western medicine courses are transferable only from regionally accredited, degree-granting colleges, universities, or TCM schools at the doctoral level. Courses taken in a Doctor of Medicine program at a nationally-accredited or candidate university may be transferable.

Transfer Fees

A transfer fee will apply to the evaluation of all courses transferred into the DAOM program. The transfer fee is 15% of the current tuition, per unit, up to a maximum of $200.

If you have any questions or need additional information regarding the transfer student application requirements, our admissions staff is available to assist you.

Transfer Planning Services

The admissions office provides Transfer Planning services to applicants who have completed partial coursework at an ACAOM-accredited or ACAOM-candidate doctorate level program.

Five Branches University has not entered into an articulation or transfer agreement with any other college or university.
Financial Aid, Tuition and Fees

Five Branches University is an accredited institution of higher education approved to participate in federal financial aid programs. Our financial aid programs assist more than 80% of our students in meeting the financial costs of their education.

The financial aid office can assist you to identify the sources of financial aid to best suit your educational needs. We understand that furthering your education requires a significant investment of your time, energy and resources and deciding how to fund your education involves solid information and careful planning. We recommend you determine your financial plan as early as possible so you can focus on your academic responsibilities once the DAOM program begins.

Students who attend the Doctoral Program and are taking three or more units are eligible for In-School Deferment for their Federal Stafford Loans or Consolidated Federal Loans. There is no limit to the time a student can receive this deferment as long as they are registered for a minimum of three units each trimester.

If you have questions or need further information you can contact us by phone, via email or make an appointment to meet with a financial aid advisor. We hope to make your financial aid experience a pleasant one.

Federal Student Financial Aid Program

Federal financial aid programs are intended to provide financial assistance to students who, without such assistance, would be unable to meet educational costs at the University. Financial Aid for the DAOM program includes educational costs: tuition, fees, books, and supplies, and a reasonable allowance for room and board while attending the program one weekend (3-4 days) each month. Monthly living expenses such as rent or mortgage payments are not covered by financial aid.

Eligibility for financial aid is determined using a federal formula as outlined by the U.S. Department of Education. In order to qualify for federal financial aid, you must be a U.S. citizen or permanent resident and enrolled for a minimum of three units each trimester. Students who attend Five Branches University on an F-1 Visa (international students) are not eligible to participate in the federal financial aid program.

Apply Online

Please follow the steps below to apply for financial aid at Five Branches University:

1. Completing the Free Application for Federal Student Aid (FAFSA) is the first step in applying for financial aid. The FAFSA needs to be completed each academic year and is available online at: www.fafsa.ed.gov. When completing the FAFSA, use the Five Branches Federal School Code: 031313. You will need a PIN (Personal Identification Number) to sign the application electronically. The PIN can be obtained at: www.pin.ed.gov.

2. Once the FAFSA is submitted you are required to complete the DAOM Supplemental Financial Aid Form.

Once you are successfully admitted to Five Branches University, you will be notified by email and sent a Financial Aid Award Letter in the mail along with supporting documents. For more detailed information on applying for financial aid please refer to: www.fivebranches.edu/doctorate-daom/daom-financial-aid/4290.
Financial Aid Policies
The following financial aid policies apply to all students receiving federal financial aid from Five Branches University.

Satisfactory Academic Progress
Students who receive federal financial aid while attending Five Branches University will be subject to the Satisfactory Academic Progress Policy as well as the College Academic Progress Policy.

Return of Title IV Funds
If you receive federal financial aid and withdraw from Five Branches University after classes have begun, you will be subject to the Return of Title IV Funds Regulations and must notify the school according to school policy. The Return of Title IV Funds Regulations will be applied first, after which the school’s refund policy will be applied. Both the Federal Aid Satisfactory Academic Progress Policy and the Return of Title IV Funds Policy are described in the Student Handbook.

During registration, state law requires all students to sign a contract to protect their student rights and specify their enrollment and financial agreement with Five Branches University.

Loan Repayment
If a student obtains a loan to pay for an educational program, the student is responsible for repaying the full amount of the loan, plus interest, less the amount of any refund in the case of a student’s withdrawal. If a student obtains Federal Financial Aid and chooses to pay tuition and fees using financial aid monies, the student is entitled to a refund of any applicable charges that were previously paid out of pocket. For more detailed information on loan repayment refer to the Frequently Asked Questions (FAQs) section of our website: www.fivebranches.edu/doctorate-daom/daom-financial-aid/4290.

Verification
Verification is a federally mandated process designed to verify the accuracy of information reported on the FAFSA. The Department of Education randomly selects students for verification, requiring the completion of a verification form and submission of supporting documentation. If you are selected for verification, it is important to return the requested information as soon as possible so the disbursement of your financial aid will not be delayed. For more information regarding verification, please visit: www.finaid.org/fafsa/verification.phtml.

Tuition and Fees

DAOM Program Tuition (2015 Academic Year)
The total tuition for the 1280-hour DAOM program is $18,000, to be paid over a period of two years.

Additional Costs
Tuition does not include the cost of books or additional fees. The English DAOM program charges an additional translation fee of $2000 for the two-year program period due to the many foreign instructors that are invited to teach. Required books are estimated to cost approximately $1000.

DAOM Program Fees (2015 Academic Year)
1. Malpractice insurance: $180/year
   a. Students can choose to either purchase malpractice insurance through the Five Branches University DAOM Program or add Five Branches University DAOM Program as an additional insured on their own existing malpractice insurance.

Please note: Tuition for each year and trimester is based on enrollment in required courses as indicated by the program.
b. This fee is collected in full at the beginning of trimesters 1 and 4.
2. Translation fee for DAOM program (applies to English DAOM program only): $1,000/year
3. Transfer fee: 15% of current tuition up to a maximum of $200.
4. Introductory Western Medicine Module tuition: $680
5. Transcript request: $5
6. Application fee: $65 (U.S. students); $365 (international students)
7. China externship administration fee: $350
8. Installment payment fee: $15/month for tuition paid by month
9. Credit card payment convenience fee: 3% of payment
10. Late fee: $20/month
Total required fees:
English DAOM Program: $2,000
Chinese DAOM Program: $0.00

**Doctoral CEU Course Discounts**
Early Registration: 10%
FBU Alumni: 20%

**Deposit**
Upon notification of acceptance to the DAOM program, you will be asked to reserve your space with a $300 non-refundable deposit, due within two weeks from the date of acceptance. The deposit will be applied towards the first tuition payment.

**Tuition Payment**
Tuition may be paid on an annual, trimester, or monthly basis. The annual tuition payment is due in full two weeks prior to the beginning of each year. An installment fee of $15/month is charged for monthly payment plans. Tuition for international students is the same as for U.S. citizens and residents.

The assigning of credit for all courses and clinical training occurs only after all financial obligations have been met. Five Branches University reserves the right to change tuition and fees as necessary.

Refund Policy

Students have the right to cancel their contract for enrollment (withdraw from the program) at Five Branches University and obtain a refund of charges paid through attendance at the first class session, or the seventh calendar day after enrollment, whichever is later. To do so they must submit a Withdrawal form to the Registrar's Office by the stipulated deadline. If they are unable to do so, a letter, e-mail or fax addressed to the Registrar with the Student's signature stating cancellation of enrollment will be accepted.

If you choose to cancel your contract after five business days have lapsed, a prorated tuition will be refunded based on the unused percentage of class time remaining. You may drop a course after instruction has started and receive a pro-rated refund for the unused portion of tuition, only if you completed 20% or less of the course. Please refer to the student handbook or the Enrollment Agreement for detailed information on the Five Branches refund policy.

Student Tuition Recovery Fund

You must pay the state-imposed assessment for the Student Tuition Recovery Fund (STRF) if all of the following applies to you: (1) You are a student in an educational program who is a California resident, or are enrolled in a residency program, and prepay all or part of your tuition either by cash, guaranteed student loans, or personal loans, and (2) Your total charges are not paid by any third-party payer such as an employer, government program or other payer unless you have a separate agreement to repay the third party.

You are not eligible for protection from the STRF and are not required to pay the STRF assessment, if either of the following applies: (1) You are not a California resident, or are not enrolled in a residency program, or (2) Your total charges are paid by a third party, such as an employer, government program or other payer, and you have no separate agreement to repay the third party.

The State of California created the Student Tuition Recovery Fund (STRF) to relieve or mitigate economic losses suffered by students in educational programs who are California residents, or are enrolled in a residency programs attending certain schools regulated by the Bureau for Private Postsecondary and Vocational Education. You may be eligible for STRF if you are a California resident or are enrolled in a residency program, prepaid tuition, paid the STRF assessment, and suffered an economic loss as a result of any of the following:

1. The school closed before the course of instruction was completed.
2. The school's failure to pay refunds or charges on behalf of a student to a third party for license fees or any other purpose, or to provide equipment or materials for which a charge was collected within 180 days before the closure of the school.
3. The school's failure to pay or reimburse loan proceeds under a federally guaranteed student loan program as required by law or to pay or reimburse proceeds received by the school prior to closure in excess of tuition and other costs.
4. There was a material failure to comply with the Act or this Division within 30 days before the school closed or, if the material failure began earlier than 30 days prior to closure, the period determined by the Bureau.
5. An inability after diligent efforts to prosecute, prove, and collect on a judgment against the institution for a violation of the Act.

However, no claim can be paid to any student without a social security number or a taxpayer identification number.

Mecca Matilda,
Director of Financial Aid
Student Handbook

The academic policies of Five Branches University are detailed in the student handbook which is given to students during registration. To assist new students, the handbook describes student services, administrative policies, and guidelines such as grading, attendance, examinations, and leave of absence. The student handbook is edited regularly to reflect updated policies.

Part Time Studies—Four Year Limit

DAOM students must complete the program requirements for graduation within four years of initial enrollment, abiding by the average DAOM curriculum schedule of 32 academic hours or four eight-hour days per month. Five Branches University policies for the doctoral program stipulate that full-time enrollment is a minimum of 10 units and part-time enrollment is a minimum of five units.

Academic and Clinic Class Size

Because the knowledge and skills shared by the leading TCM and Western faculty invited to the DAOM program is both rare and highly valued, there are no limits to the size of academic courses. Doctoral Clinical Theatre is limited to 40 students and Doctoral Grand Rounds is limited to 20 students. The program requires that all participants reflect the highest levels of professionalism and respect in class and in the clinic. The University reserves the right to cancel any scheduled academic or clinic course, or change faculty as necessary.

Attendance

DAOM students must attend all scheduled classes and clinical training as required by the program. If a DAOM student misses a class due to an emergency, he/she is responsible for obtaining the notes for the class lecture. It is recommended that in an event of a foreseen absence, the student notify the DAOM administration. Students who have more than a 45-day gap in attendance or miss more than 16 hours per term may be subject to a Return of Title IV funds and may not meet the criteria for an in-school deferment status. Students who have not attended academic or clinic classes for four consecutive months without prior notice to the DAOM administration will automatically be withdrawn from the program. For more detailed information on attendance policies please refer to the student handbook.
Leave Of Absence

The purpose of a LOA is to provide the students with the opportunity to leave the college for an extended period of time without withdrawing or affecting their SAP calculations. A student in good standing who has successfully completed at least one (1) term may apply for a LOA not to exceed 180 calendar days. The student must complete a Leave of Absence form and submit it to the Registrar’s Office for approval. The effective date for the LOA must be at the beginning of the term the student is requesting the leave and comply with appropriate requirements. All loans and other sources of funding for the term of an approved LOA will be returned to the appropriate parties. If a student was scheduled to be on Academic Probation for the term the LOA is effective, the conditions of the Academic Probation will be effective the term the student returns from the LOA. If a student does not return from an approved LOA, the grace period for applicable federal loans will begin with the last date of attendance the student was enrolled in the program for at least a part-time study status. Students, who do not return from a LOA to resume courses on or before the approved return date, will be automatically withdrawn from the program. Excluding the time taken for leave, students must complete the program within the maximum program time frame. International Students must speak with the International Student Designated School Officer if they wish to go on leave.

Withdrawal from the Program

Withdrawal from the program requires the submission of a Withdrawal form and an exit interview with the program director. If you have received financial aid, you will be required to complete an exit interview with the financial aid director. Following withdrawal from the program, if you wish to reapply you are required to complete a new application for admission. Upon readmission, after an absence of one year or more, you will be required to complete the program of study that is in place in the term in which you return. All re-admission is subject to approval.

Grading Policy

Grades are awarded as an assessment of the student’s progress in achieving the educational goals of each module according to the syllabus and the policies of the University. Five Branches University uses a letter grading system (A, B, C, F) for all didactic courses and grades of credit/no credit (CR/NC) for all clinic courses.

The methods of assessing a student’s academic achievement include:
- Case Studies/Clinical Analytic Charts for clinical modules
- Research Papers for theoretical modules
- Pre-proposal, Proposal, Proposal Presentation and Capstone Paper for the Capstone Project
- Clinic Assessment Forms for clinical training
- Exit Exam for overall knowledge and skills synthesis of the DAOM Program

Progress will be determined by the student’s performance on the assessment methods above, participation in class, and attendance.

Review Process

Students are required to be in good academic standing and maintain standards of professionalism at all times. Any student who does not meet the established criteria for normal academic progress and professionalism will be referred to the DAOM Academic Committee.
DAOM Academic Committee

The DAOM Academic Committee (DAC) reviews academic progress of students to ensure their success in the program. Students who need assistance to maintain good academic standing are required to meet with the DAC to devise a plan to improve their academic performance. Students may ask the DAC for help in finding tutors and/or other resources to assist with successful completion of the program.

The DAOM Academic Committee is responsible for ensuring a fair and impartial disciplinary process for students who breach standards of professionalism. Most cases are resolved in ways that serve to foster the ethical development and personal integrity of students, and to provide a safe and comfortable campus environment.

Standards of Professionalism

The standards of professionalism policies are intended to protect the rights of all students, faculty, staff and patients at Five Branches University while on campus and at all sponsored events. Five Branches University may impose discipline for violation of these standards of professionalism including, but not limited to, dishonesty, disrespect, disrupting a professional atmosphere, substance abuse, and sexual harassment. For detailed information about the standards of professionalism policies, refer to the student handbook.

Academic Warning and Probation

Students unable to maintain good academic or professional standing are placed on academic warning or probation. Students will be notified by letter of the reasons that led to this action and an explanation of the corresponding satisfactory academic progress requirements for the ensuing term. Student enrollment is subject to review until the student returns to good academic or professional standing. For detailed information regarding the academic warning and probation policy refer to the student handbook.

Academic Dismissal

Academic dismissal is termination of enrollment at the University for the inability to meet academic or professional standards. Failure to comply with the requirements set forth by the DAOM Academic Committee for remediation of a probationary status will result in academic dismissal. Students may appeal this action through the academic appeal process outlined in detail in the student handbook.

Academic Appeal

The DAOM Academic Committee (DAC) is responsible for reviewing and approving appeals. Appeals must be submitted to the DAC in writing, describing any extenuating or mitigating circumstances that prevented compliance with Five Branches University policies. An appeal must explain what has changed in the student’s situation, and the precise steps the student will take or is taking to regain good academic standing. For detailed information regarding the academic appeal process refer to the student handbook.

Grievance Procedure

Students who have complaints concerning administrative or academic policy may submit the grievance in writing to the DAOM Academic Committee (DAC). The DAC will review the complaint and gather all relevant information prior to making a decision. If the complainant is dissatisfied with the decision of the DAC, she/he may submit a written appeal with all relevant documentation to the academic dean and the president. Following this, the matter may be given to the board of directors for final review.

If the complainant has made full recourse of the University’s grievance procedure, and believes the University did not address their complaint, the student may contact the Accreditation Commission for Acupuncture and Oriental Medicine at 8941 Aztec Drive, Eden Prairie, MN 55347; phone (952) 212-2434; website www.acaom.org. For detailed information regarding the grievance procedure, refer to the student handbook.

Student Records

In compliance with the Family Education Right to Privacy Act (FERPA), student academic records are maintained by the office of the registrar. A student record contains all documents relating to a student’s activities at Five Branches including, but not limited to: admissions, grade reports and transcripts, registration, tuition payments, correspondence, and health documents.

The University does not release school records or any other information about a student to any third party without the consent of the student, except as allowed by law. Students may obtain an unofficial copy of their transcript or request an official copy by submitting a transcript request form to the registrar’s office.

The University permanently maintains records of academic progress.
Transferability of Credits and Credentials Earned at Five Branches University

The transferability of credits you earn at Five Branches University is at the complete discretion of an institution to which you may seek to transfer. Acceptance of the degree(s) you earn at Five Branches University is also at the complete discretion of the institution to which you may seek to transfer. If the degree(s) that you earn at this institution are not accepted at the institution to which you seek to transfer, you may be required to repeat some or all of your coursework at that institution. For this reason, you should make certain that your attendance at this institution will meet your educational goals. This may include contacting an institution to which you may seek to transfer after attending Five Branches University to determine if your degree(s) will transfer.

Graduation and Granting of Degree

A DAOM candidate is eligible for graduation when he or she has satisfactorily completed all didactic and clinical courses, submitted all requirements, and obtained a passing mark at the final Capstone Project/Oral Defense. Upon graduation, students will be awarded a doctoral (DAOM) degree. The DAOM degree does not lead to licensure.

Non-discrimination Policy

Five Branches University is an equal opportunity institution and does not discriminate on the basis of age, race, color, religion, national origin, ethnicity, gender, or sexual orientation, in the administration of admission, educational policies or employment. The University abides by Title II of the Americans with Disabilities Act, which prohibits discrimination against any “qualified individual with a disability.”

Bureau for Private Postsecondary Education

Any questions a student may have regarding this catalog that have not been satisfactorily answered by the institution may be directed to: The Bureau for Private Postsecondary Education, 2535 Capitol Oaks Drive, Suite 400, Sacramento, CA 95833; P.O. Box 980818 West Sacramento, CA 95798-0818; phone: (888) 370-7589 or by fax (916) 263-1897; phone: (916) 431-6959 or by fax (916) 263-1897; website: www.bppe.ca.gov
